DGIM is closely affiliated and cooperates with 11 Sub-specialty Societies of Internal Medicine

Cooperations include:

• Joint statements on legislative procedures
• ...and new pharmaceutical market entries („AMNOG“)
• Guideline development
• Choosing Wisely initiative in Germany („Klug entscheiden“)
• Contribution of sessions to the DGIM-Congress
• Developing new curricula (Intensive/ Emergency Care)
• Promoting new sub-specialities (Infectiology: approved by the German Medical Council)
• ...and many more
Digital transformation in Internal Medicine

- Active participation of DGIM in developing electronic health records („ePA“) in Germany
- AI in Internal Medicine
- Telemedicine
- Evaluation procedures for health apps („DiGA“)
- Digital medicine in professional education
- Scientific data use and safety: DGIM use cases for science and care in Internal Medicine (in development)
Quality standards in research, care, and medical education in the context of health policy reforms

- Outpatient restructuring of hospital care („Ambulantisierung“) and hospital reimbursement reform: DGIM position papers and policy guidance
- Medical licensing reform („Ärztliche Approbationsordnung“): Core scientific competencies, Internal Medicine and „General Medicine“
- Improving medication safety through clinical decision support: DGIM polypharmacy guideline and AdAM-RCT
DGIM 2024 - Save the Date
