

Take a trip to the home base of medicine

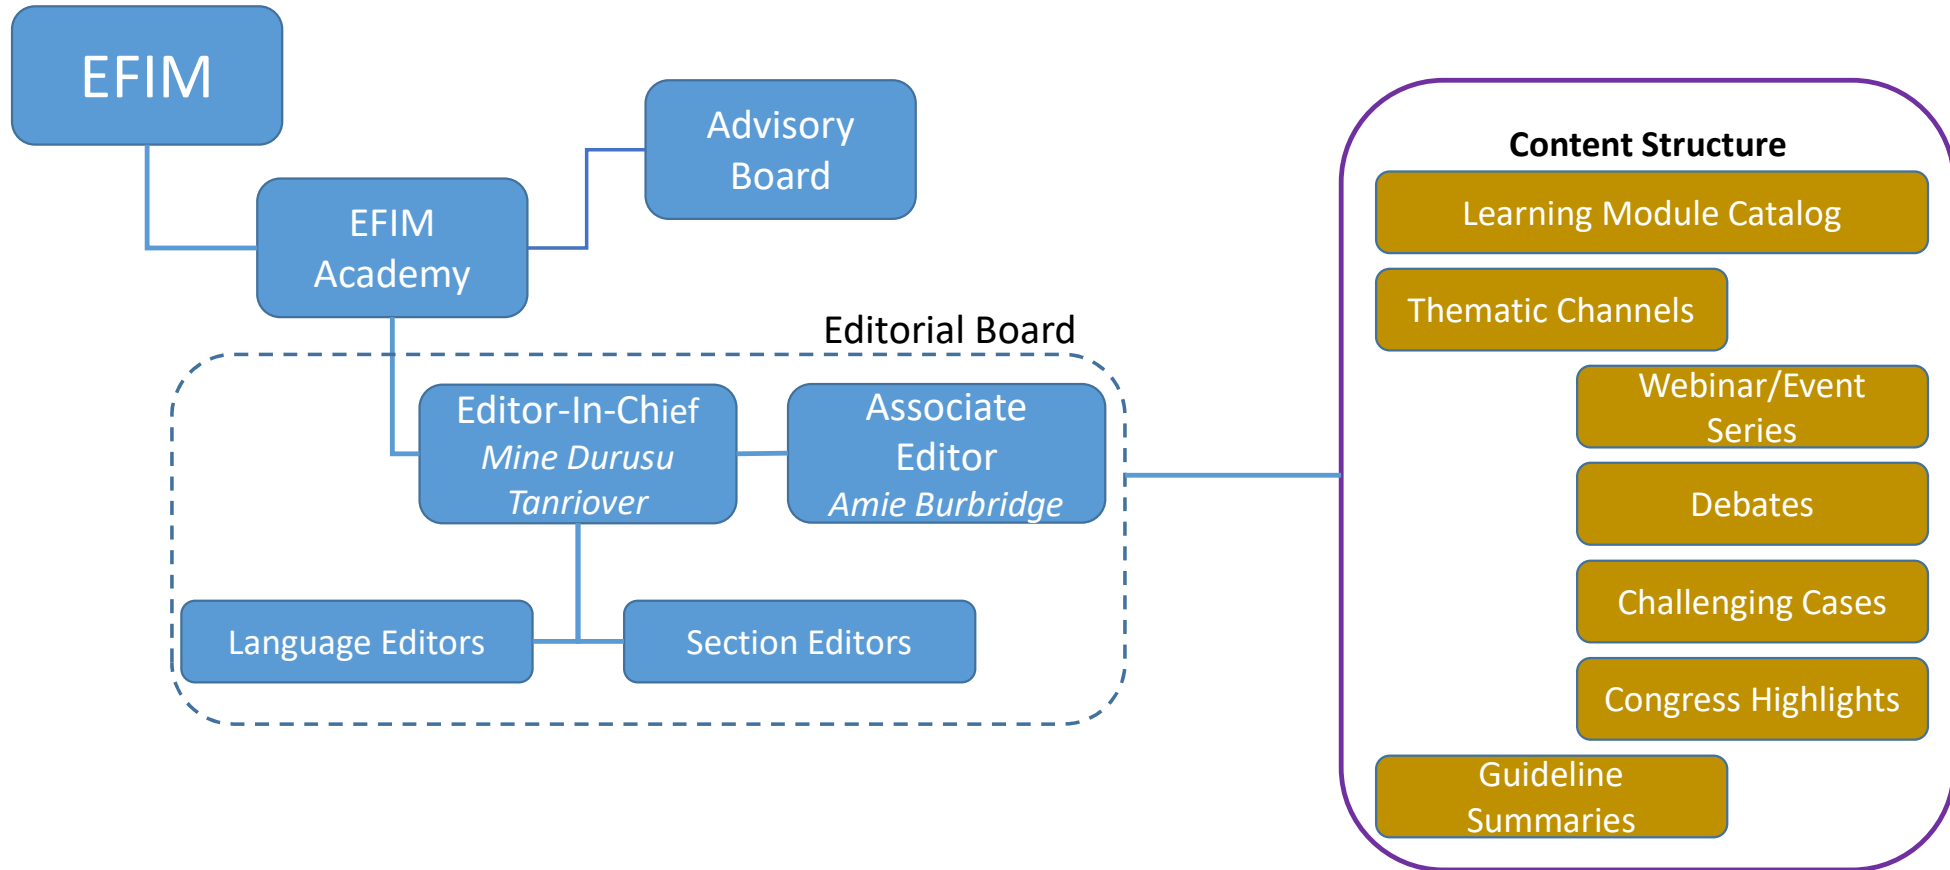

Agenda

- EFIM Academy Organization Structure
- Components of Academy Content
- Selected Module Categories (Taxonomy)
- Academy Platform Layout & Navigation Review
- Project Management and the Way Forward

EFIM Academy Organization

Content Components Explained I

Component	Description
Latest News	A sliding window on the home page to announce latest news, if required, with links to detailed info on internal/external pages.
Channels	Thematic collection of e-learning content for easy access without the need to browse the entire EFIM Catalog.
E-Learning Module (Module)	Training content in the form of presentations, videos along with collateral document repository and built-in quizzed/tests in pre-and post-learning stage. Long content will be broken down to 15-to-20-minute sections with test questions in-between. Community contribution and Q/A section possible. Optional multi-language versions with translation, voice-over and subtitles. Congress presentations and webinars will be processed to fit in.
Podcasts	EFIM Academy, anytime anywhere!

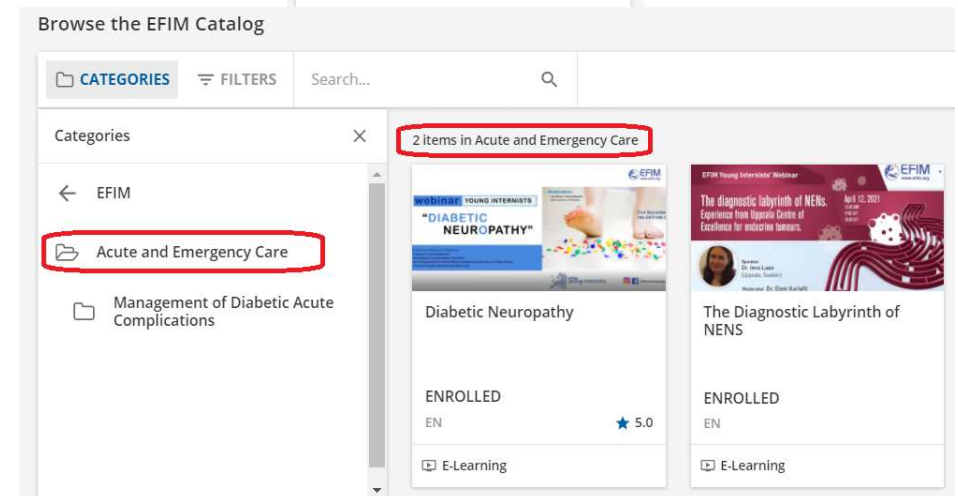

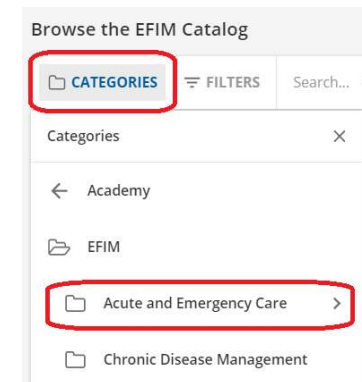

Content Components Explained II

Component	Description
Challenging Cases	Interesting case studies with in-depth analysis by the case submitter. Open to contribution from community members using a forum and possible Q/A section (subject to approval by case submitter). Sources: ESIM, ECIM, EJCRIM, community submissions.
Debate	Discussion by speakers with controversial opinions on disputed trending topics
Highlights of Congresses	Congresses that an internist needs to follow to be spotted Podcasts/ video recordings/ interviews to briefly summarize the trends, groundbreaking information from each selected congresses Best posters from ECIM
Guideline Summaries	Dedicated pages to summarized guidelines on patient management topics with a link to the full guideline document, including updates & versioning.
Bulletin / Newsletter	Dedicated pages to newsletters.
