MACEDONIAN ASSOCIATION OF INTERNAL MEDICINE

ИНТЕРНИИСТИ
Здружение на интернисти на РМ

M.D. Aleksandar Manolev
President

www.internisti.com.mk
Establishing

• Macedonian association of internal medicine (MAIM) is founded on December 2011

• Many circumstances influenced on our late establishing, but 2 were crucial for founding:
  - new onset of internists in the past 10-15 years
  - common sense for establishing association that will gather all internists together
The idea of founding, our aim and goal

• to bring together all internal medicine specialists for mutual cooperation and professional medical update
• collaboration with the other associations from the country and abroad
• representing the common interests of improving the conditions and opportunities in everyday clinical practice
• to create clinical applied guidelines through highly specialized medical educations
• cross-matching guidelines with real clinical challenges
Organizing structure

President
Vice-president
General secretary
Managing board
15 members
Event organizing board
9 members
Organizing structure

Assembly of members
150
- 70 % in secondary healthcare
  (ambulatory units)
- 30 % in secondary healthcare
  (hospital departments of internal medicine)

Group of young internists and residents of internal medicine
Past events
