16:50-17:00
Comments and conclusions

Regular meetings
Multimorbidity working
group

All activities within EFIM have been both enriching and inspiring

The positive experiences have deepened my interest in developing European strategies to address the complex challenges of modern medicine.

Position of EFIM Treasurer

Alongside my clinical work, for many years I have also been dealing with the various social aspects of medicine including the challenging financial questions. This experience has helped me better to understand how healthcare and financial sustainability are connected.

I hope that my experience in social medicine will allow me to contribute meaningfully to this role. At the same time, I see this position as a valuable opportunity to further expand my knowledge within the European context.

I approach this responsible position with both enthusiasm and a deep sense of respect.

And I would be honoured to serve EFIM in this capacity.

Thank you very much for your attention!
