- Quality-conscious
- Open, interested, innovative

SGAIM SSMIG SSGIM

Mission

We practice generalism in a highly specialized medical environment.

We practice integrative medicine in an high-quality and cost-efficient healthcare system.

We accompany and support patients throughout their lives in an increasingly complex, fragmented healthcare system.

We have a particular focus on the increasing number of multimorbid patients.

SGAIM SSMIG SSGIM

Vision

General internal medicine creates added value for patients and the healthcare system.

We ensure outpatient and inpatient primary care along with holistic treatment.

One of the most important national players within the medical profession on the topic of quality and a leader in research.

We strengthen our position as the most progressive and largest medical specialist society in Switzerland.

SGAIM SSMIG SSGIM

Thank you for your attention.
